Intended for Waste Collection  
Permit Holders, Administrative  
and Support Staff

# Waste Collection Permit Holder Training Programme

The Waste Collection Permit Holder Training Programme has been developed by ETS to meet the NWCPO training and certification needs of Waste Collectors and supporting administrative staff. It identifies key responsibilities arising from the Waste Management Acts and associated regulations and helps you comply with Permit conditions.

## Training details

The programme is delivered by Andrew Moag who has extensive experience in this area. The training is practical and focused on your requirements and helps you work with your permit effectively. We provide a detailed reference manual on the day for you to keep and use when you are back at work.

## Certification

Successful completion of the one day training programme and assessment will qualify participants for the award of an ETS Completion Certificate that meets NWCPO requirements for training. The duration of the programme is one day.

## Programme Dates:

Refer to ETS website  
**www.  
environmental  
training.ie**  
for current dates.

## Programme Venue/Time:

Refer to ETS website  
for current venue.
